

# TRANSPARENTA SHOWCASES

Transparenta is the master of display. Its five basic showcase shapes are designed to be used together in any required combination. With almost limitless variations, the system challenges the designer to create something unique and unusual for the secure storage and presentation of valuable merchandise. In addition, Transparenta enables glass panels and partitions to be constructed in a wide variety of designs for both exhibition and retail applications. Made from tempered glass, Transparenta has a unique method of construction and can be quickly assembled without the need for special tools.

T-1-80Q, T-1-1500& T-5-1930
